| Project Title | Developing a heterogeneous manycore simulation environment that can provide cycle accurate execution estimate for applications executing on a manycore platform. | | |
| Author(s) | <i>Student(s) name(s)</i> | | |
| Keywords | Manycore, NoC, Simulation Framework | | |
| Project description | | | |
| References | <i>Give 2-3 references for students to start with</i> | | |
| Prerequisites | <i>Courses, any other important information</i> | | |
| Time frame | <i>Indicate start and duration of project</i> | | |
| Supervisor(s) | Zain Ul-Abdin, Suleyman Savas, | | |
| Programme | <i>Name and the number of credits</i> | | |
| Examiner | <i>Name of project Examiner</i> | | |
| Signatures | <i>Student(s):</i> | <i>Supervisor(s):</i> | <i>Examiner:</i> |
